

Novelty

Yes: new introductions
No: overall availability

Specificity

No: general meat sales

Yes: counterpart-specific sales

A1

Analog availability (count, proportion) → meat sales

36 exposure–outcome pairings

18 primary outcomes

36 pooled estimates

A2

Analog availability (presence, count) → counterpart sales

10 exposure–outcome pairings

10 primary outcomes

10 pooled estimates

A3

New analog introductions → meat sales

6 exposure–outcome pairings

3 primary outcomes

12 pooled estimates

A4

New analog introductions → counterpart sales

3 exposure–outcome pairings

3 primary outcomes

6 pooled estimates

Sensitivity analysis: Within-customer effects

8 exposure–outcome pairings

5 primary outcomes

24 pooled estimates
